The following is an examiner's statement of reasons for allowance: Claim 6 is allowable for the reasons set forth in the amendment filed April 21, 2005. Of particular patentable significance are the limitations of the frictionally engageable armature electromagnet, the reciprocating magnetic flux, the isolation member, the circular slits, and the newly recited circular groove on the surface of the isolation member. The resulting combination is not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
